COMMITTEE REPORTS

1. Administration – Ms. O'Connell reported that the Recreation/Park Study Committee will be meeting on August 29th, at which time they will present and review pool

concepts. Soon, a draft of the study will be ready for Council's review; possibly within the next 60 days which would coincide with the budgeting process. She acknowledged and thanked the Junior Council Person, Courtney Grondziowski, who has been very active and has also been a part of the Rec/Park Study Committee. She will be going off to college. Ms. Grondziowski said this would be her last Council meeting; it was an enjoyable experience and thanked Council for the opportunity.

2. Finance – Mr. Stewart asked that Council review the finances in September and prepare for the budget process. Ms. Weitzel asked the Council Committee Chairpersons to submit their Budget needs to Manager Callen; Mr. Callen noted that department heads should also submit their wish list, and he will be providing a master list to Council on August 27th to work from, to submit back to him by Sept. 10th, which he will develop a budget from that input and the first Budget meeting is scheduled for Oct. 2nd. Mrs. Tremblay noted that all of the Budget Meeting dates are on the website and in the newsletter; there are several meetings and open to the public.
3. Public Safety – Mr. Phillips reported that the CVFD ordered some new hoses; within budget, and also ordering additional radios for backup. He asked if the additional crossing guard was discussed and budgeted for 2012; Ms. Weitzel said that the School Board is in favor of this post and, if need be, eliminate another post to financially provide for this post in the budget. Mr. Phillips presented some photographs of various sidewalks in the Borough that appear worse than the ones in question on W. Crafton Avenue, and questioned why those property owners are being approached/targeted by the Borough to replace their sidewalks. Ms. O'Connell/Mr. Stewart noted that the property owners were not being strong-armed to replace their sidewalk; that the Manager was only presenting an offer to them, which would be to their benefit if they chose to take advantage of it. Ms. O'Connell suggested that Mr. Phillips provide those photographs and addresses to the Ordinance Officer to investigate/cite. Mr. Phillips said he shouldn't have to, as they are the sidewalks of three of the Councilpersons; he also noted that several borough-owned sidewalks need repaired as well.
4. Ordinance – Mr. Johnston reported that the three ordinances that were discussed on several occasions are on the Agenda to approve their preparation and advertisement for adoption at the next meeting. He noted that the parking ordinance notice will also be posted on the streets that are directly affected.

It was confirm that the Tobacco-Free Zone in the park would be the entire park. She also agreed that those seem to be legitimate problems with a crosswalk in front of the school, and would directly take away resident parking spaces on the City of Pittsburgh side of the street.

She asked that Council look at this site and possibly consider prohibiting parking across from her driveway. Manager Callen would look into this matter.
